## Community Group Discussion Guide – 2 Corinthians 9:6-15

### Study Together

What is the principle articulated in vs. 6? Restate the principle in your own words:

What does the text say is the opposite of a bountiful and cheerful giver?

What are the promises God gives us in these verses?

How might someone misuse these verses to develop false motivations for giving?

How would you refute this faulty view from the text itself?

What are the results Paul desires to see because of the church's giving?

### Apply Together

Evaluate your own heart and life - Are you experiencing joy as you give?

If "no" why do you think you are not?

If "yes" share about the joy you have experienced in giving?

How has God displayed both bounty and joy in giving to us?

List the ways (spiritually, relationally, materially) God has been bountiful in giving to you:

**Reach Emphasis Commitment:** I/we will seek to Reach Our World by committing to give to King's Chapel the following amount in 2017: \$\_\_\_\_\_
